I.K. International Publishing House Pvt. Ltd., 2008. Paperback. Book Condition: New. 14cm x 21.5cm. Twenty-five safety awareness surveys of organizations in various locations in India reveal that the level of safety awareness among managers is within the range of 75-85% and among non-managers it is within the range of 70-80%. Hence there is a scope of nearly 25-30% improvement in safety awareness level of employees. Eighty to ninety percent of accidents are triggered by unsafe acts or behaviors. Thus there is a need to emphasize upon behavior based safety (BBS). The present treatise is concerned with human safety in understanding and application of the concept and process of behavior based safety for correcting unsafe behaviors for reduction of accidents and promoting safe behaviors for developing injury-free culture in organizations. This book is based on experiential learning through conducting a number of BBS workshops and safety awareness surveys in Indian organizations.
